

Name of intervention:

Meet and Greet

Intent: For children who find the transition into school, in the morning, difficult.

Implementation: Pupil will be met at the school gates each morning by our Pastoral Support Worker. The Pupil will then have some time with a friend in the Sensory Garden. This eases the transition, from parents/carers, into school.

Impact: Child has a much calmer start to the day and is able to access learning from the start of the school day.

Lead by: Carly Taylor and other staff as required
