

Name of intervention:

Clever Fingers

Intent: To enable children who are not on track from initial baseline assessment to develop fine and gross motor skills.

Children will access indoor and outdoor activities building confidence and develop finger strength/pre-writing for pencil control and develop core strength and coordination.

Implementation: Clever Fingers will run 2-3 times a week, twice a day at snack/story time and end of morning carpet session. There will be additional time during continuous provision with a focus on gross motor skills (outdoor when available).

Impact: Baseline assessment information gathered, observations taken and monitored. Children will make progress in both their fine and gross motor skills so that they are working at the expected level.
