

Name of intervention: **Power of Two**

Intent: Power of 2 is a highly structured Intervention, designed to boost numeracy skills through short, daily sessions. It focuses on the building blocks of number and core mathematical concepts such as number bonds, doubling and fractions. It is used with children who are struggling with the basic concepts of Maths and supports them in being able to access their year group's curriculum.

Implementation: The intervention is delivered on a 1:1 basis in 15-minute, daily sessions.

Impact: The intervention moves at a child's pace; they must answer 3 questions correctly on three consecutive occasions on different days before moving on.

Lead by: Kath Hartshorn, Shelley Barson.
